McFarland Clinic

Extraordinary Care, Every Day

McFarland Clinic Family Medicine East

It is the goal of McFarland Clinic, Family Medicine East, as a primary care practice, to be an effective patient-centered medical home (PCMH) for you, our patient.

This means we will coordinate both medical and social services to help manage your overall needs. Should you need behavioral health care, your primary care physician will oversee access to these services.

How to Contact Us

Monday through Friday
8 a.m. to 5 p.m.
call us at (515) 663-8621

www.McFarlandClinic.com online scheduling during and after business hours for Family Medicine East, Express Care and Urgent Care.

Coordinating Services

If you receive medical services outside of McFarland Clinic, please request the facility to release records of your visit to your primary care physician. Report any other care you receive to your primary care physician. We will provide to you, current and pertinent educational materials and resources in printed or electronic format. We offer financial services through our business office.

Meeting Your Needs

Our facility is supported by an electronic health record system. We will alert you to appropriate care needs based on your age and health condition as appropriate according to current medical guidelines in verbal, printed, and electronic form. We will provide to you, current and pertinent educational materials and resources in printed or electronic format. We also offer financial services through our business office.
