

# MIGRAINES?

**Learn about a research study for people who have between 2 and 14 migraines per month.**

If you experience migraines with moderate to severe pain, you may qualify to participate in a research study evaluating an investigational medication. All study-related care and study medication or placebo will be included at no cost, and qualified participants may receive financial compensation.

**To participate, you must:**

- Be 18 years of age or older
- Experience 2 to 14 migraines per month
- Have had migraines for at least 1 year with an onset before age 50

Additional criteria apply. Contact us today to see if you qualify.
